University of Cambridge

University of Cambridge, founded in 1209, is one of the world’s oldest universities and leading academic centres, and a self-governed community of scholars. University of Cambridge comprises 31 colleges and over 150 departments, faculties, schools and other institutions. It has more than 80 Nobel Prizes to its credit, more than any other single university in the world.

The A*STAR - University of Cambridge Partnership PhD Programme (ACP) is a four-year scholarship comprising two years of PhD studies at Cambridge, and two years at a relevant A*STAR Research Institute (RI) in Singapore. PhD research training will be carried out under the supervision of a Cambridge Professor and a senior member of an A*STAR Research Institute (RI). Successful students will be conferred a PhD degree by the University of Cambridge.

A*STAR Graduate Scholarship provides 4 years funding for PhD.
For more details, please go to [http://www.a-star.edu.sg/ags](http://www.a-star.edu.sg/ags)

“A*Star Graduate Academy provides us the opportunity to attract excellent students from Singapore and the continuous cohort will build a permanent bridge of collaborative research between Cambridge and Singapore.”

Areas of Interest

Research areas under the ACP PhD Programme fall broadly under two categories:

(i)  Biomedical Sciences; and  
(ii) Physical Science and Engineering.

Approved research areas will be determined by the Programme Governing and Academic Board, and will be aligned with the research thrusts of the A*STAR RIs.

Research by School and Department

- Arts & Humanities
- Biological Sciences  
  including Veterinary Medicine, Clinical Medicine, Humanities & Social Sciences
- Physical Science
- Technology

The University has developed and is developing a number of interdisciplinary initiatives including:
- Cambridge Cancer Centre  
- Cambridge Conservation Initiative
- Cambridge Environmental Initiative
- Cambridge Immunology
- Cambridge Infectious Disease
- Cambridge Neuroscience
- Energy Research
- Physics of Medicine
