NEW OPEN HORIZONS WITH THE A*STAR SCHOLARSHIP

The A*STAR scholarship is gateway to many opportunities and is dedicated to the career success of the next generation of researchers. It aims to provide the best training and opportunities for excellence in research, and to best prepare young scholars as the next generation of global leaders in research and innovation. A*STAR scholars will also have the opportunity to explore research in the cutting-edge fields of biomedicine, technology and social sciences.

Keeping in Touch

With a network of over 170 research institutes and over 50,000 professionals, A*STAR scholars will have access to a wealth of knowledge and industry insights. A*STAR scholars will have the opportunity to attend world-class seminars, workshops and conferences, both in Singapore and overseas, and are encouraged to develop their own research agendas, acquire innovative ideas and develop a global perspective.

A*STAR CARE

Once you become an A*STAR Scholar, your well-being is our priority!

Every scholar is a valued member of the A*STAR family. As scholars pursue their dreams and passion, they are backed by a very strong support network every step of the way, enabling them to make the most of an enriching and meaningful experience.

Our scholars gain a solid PhD education, rich research experience and a springboard to careers in Science, Technology, Research and Innovation.

The A*STAR scholarship presents you with many options in the future. Your passion for science and the perseverance to see through the efforts to fruition. But they must be guided for a higher sense of purpose and contributions to make a difference and to serve the community. Looking ahead, our scholars will play a critical role in forming the community of local and international research scientists and engineers from A*STAR’s research entities as well as a growing number of corporate laboratories.

SCIENCE: SEE THINGS DIFFERENTLY

Science. Things to see.

Science."
There is a diversity of talent, strengths and interests amongst our Singaporean PhD talent. While many AMSTAR scholars choose to advance their careers as scientists at our research institutions, others have chosen different career pathways in public sector, technology enterprises and spin-off companies in Singapore’s increasingly knowledge-intensive economy. There are also opportunities to develop as patent examiners, science communicators and educators, amongst others. Join the community of AMSTAR scholars today and jumpstart your career!
