STRUCTURED ENTREPRENEURIAL PROGRAMMES

Resilient Founders. Deep-Tech Startups. Global Impact

A*StartCentral is A*STAR's deep-tech venture building platform since 2016: an innovation space of state-of-the-art wet labs, engineering workshop and collaborative spaces purpose-built for scientists, researchers, founders and industry partners to innovate side-by-side.

At the heart of A*StartCentral is a vibrant ecosystem of programmes, mentorship opportunities, and community-building events that support founders at every stage of their entrepreneurial journey.

INFRASTRUCTURE POWERING INNOVATION

Ready-to-use labs, specialised equipment and flexible workspaces to expedite go-to-market and scale with you

CHEMISTRY LAB

For Synthesis, Formulation and Analytical Workflows

- 3 and 4 pax Private Lab Suites
- Multiple Chemical Fume Hoods
- High Performance Liquid Chromatography
- Controlled-Atmosphere Glovebox
- Rotatory Evaporator
- Muffle Furnace

LIFE SCIENCE LAB

For Cell Culture, Molecular Analysis and Imaging

- 2, 4 and 6 pax Private Suites
- Shared Tissue Culture Room
- qPCR system
- Fluorescence Microscope
- Imaging System automated for fluorescent and chemiluminescent western blots
- Nano Spectrophotometer

ENGINEERING WORKSHOP

For Advanced Prototyping and Pre-compliance Testing

- 3 and 6 Pax Private Suites
- RF Semi-Anechoic Chamber (EMI/EMC pre-compliance testing)
- ESD Testing (up to 16 kV)
- 3D Metal and Composite Printer
- Temperature and Humidity Chamber (for reliability and stress testing)
- PCB Prototyping System (Up to 8 layers)

Additional shared equipment and facilities available

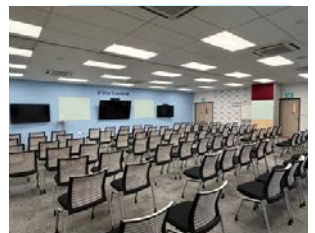

FACILITIES

Social Collision Space and Showcases

Co-working Space and Hotdesks

Seminar Room(s)
Approx 100 pax
