

# 2ND PAN-ASIA SYMPOSIUM ON THE GENETICS OF BRAIN DISORDERS 2022

CLINICAL SCIENCES BUILDING,  
ONG TIONG TAT & IRENE TAN LIANG KHENG AUDITORIUM, LEVEL 4  
11 MANDALAY ROAD, SINGAPORE 308232

3<sup>RD</sup> - 5<sup>TH</sup> NOVEMBER 2022

**SAVE THE DATE**

## EVENT DETAILS

Join us at the 2nd Pan-Asia Symposium on Genetics of Brain Disorders – a 2.5 day hybrid event aimed at bringing together leading scientists, academics, researchers and industry partners from the region working on neuropsychiatric disorders to share latest findings, discuss effective therapeutics for these diseases and foster regional collaborations.

The Symposium is co-organised by Genome Institute of Singapore, the Institute of Mental Health, Lee Kong Chian School of Medicine, and NUS Yong Loo Lin School of Medicine, together with the Stanley Center for Psychiatric Research at the Broad Institute of MIT and Harvard.
