

# Introduction to **AWS**

## *For genomics researchers*

This training will cover the basics of AWS cloud computing using long read sequencing datasets and Nanopore long-read RNA-seq data analyses - but the concepts apply to all genomics workflows.

The training will assume that you're already familiar with doing genomics and bioinformatics using a command line - then we'll help start your journey into the cloud!

**REGISTER NOW**

Two Half Days:

**22 - 23 June 2022**

11:00 AM - 02:00 PM each day  
SGT (UTC +8)

### **MEET THE TEAM:**

**DR. ANDRE SIM**

Postdoctoral Fellow  
GIS

**DR. CHEN YING**

Postdoctoral Fellow  
GIS

**DR. SUMA TIRUVAYIPATI**

Postdoctoral Fellow  
GIS

**DR. SWAINE CHEN**

Principal Investigator  
GIS

**DR. GÖKÇE OĞUZ**

Research Associate  
GIS

**NATHANIEL NG**

Solutions Architect  
AWS

**SHUN UTSUI**

Solutions Architect  
AWS

**DHRUBA CHAKRABARTI**

Research & Education  
AWS

**AUSTIN CHERIAN**

Developer Advocacy  
AWS
