

ARAP WITH IMRE RESEARCH AREA: SUSTAINABLE MATERIALS, PROCESS & MANUFACTURING

#	A*STAR Researcher	Designation	Email Address	Research Area
1	Li Junxia	Scientist	li_junxia@imre.a-star.edu.sg	One research direction in my lab focuses on geopolymer synthesis with low CO2 emission. I would like to collaborate with groups which are interested in geopolymer formed with industry waste ash.
2	Li Junxia	Scientist	li_junxia@imre.a-star.edu.sg	The main research direction in my lab focused on green bendable concrete development. I would like to collaborate with groups which have expertise in bendable concrete.
3	Pei Wang	Scientist	wangp@imre.a-star.edu.sg	My research focuses on materials development for metal AM. I'd like to collaborate with groups interested in metal AM and metal alloy characterization.
4	Wang Xizu	Senior Scientist	wangxz@imre.a-star.edu.sg	Develop new organic/perskite materials in flexible electronics
