

Dear Tenants of Biopolis,

With the opening of the full operation of the Circle Line on **8 Oct 2011**, Buona Vista has become the new transport hub as it is the interchange of the East-West line and the Circle Line. With the new station entrance located outside MOE, the working population in Biopolis is in close proximity to this major public transport hub. Stations such as the one-north (Fusionopolis) and Holland Village are just one stop away in respective direction (please refer to the map below). In addition, the F&B outlets in Biopolis are well established and have supported the community well. We understand that more banking facilities will be available at the new station entrances, and with the completion of the Metropolis linkway in 2013, the connectivity and amenities will be further enhanced for tenants at Biopolis. With the above considerations, the bus shuttle services for both Fusionopolis and Biopolis are scheduled to cease operation, and to facilitate the smooth transition, we will continue to provide all the shuttle services till **29 Oct 2011 (Sat)**.

However, in view of tenants' feedback, **w.e.f. 31 Oct 2011 (Mon)**, only the Biopolis shuttle bus **Route A** (with revised route & frequency, as shown below) shall continue to ply until the Metropolis linkway is completed in early 2013.

Thank you for your understanding and support.

Monday to Friday
