

Publications

Cheung C, Bernardo AS, Trotter MW, et al. (2012).

Generation of human vascular smooth muscle subtypes provides insight into embryological origin-dependent disease susceptibility.

Nature Biotechnology, 30(2), 165-73.

Cheung C, Bernardo AS, Pedersen RA, et al. (2014).

Directed differentiation of embryonic origin-specific vascular smooth muscle subtypes from human pluripotent stem cells.

Nature Protocols, 9, 929-938.

Trigueros-Motos L, Gonzalez-Granado JM, Cheung C, et al. (2013).

Embryological-origin-dependent differences in homeobox expression in adult aorta: role in regional phenotypic variability and regulation of NF- κ B activity.

Arteriosclerosis, Thrombosis, and Vascular Biology, 33(6), 1248-56.

Cheung C, Goh YT, Zhang J, et al. (2014).

Modelling cerebrovascular pathophysiology in amyloid- β metabolism using neural crest-derived smooth muscle cells.

Cell Reports, 9(1), 391-401.

Narmada BC, Goh YT, ... Cheung C. (2016).

Human stem cell-derived endothelial-hepatic platform for efficacy testing of vascular-protective metabolites from nutraceuticals.

Stem Cells Translational Medicine, 6(3), 851-863.

Bargehr J, Low L, Cheung C, et al. (2016).

Embryological Origin of Human Smooth Muscle Cells Influences Their Ability to Support Endothelial Network Formation.

Stem Cells Translational Medicine, 5(7), 46-59.

Ng GJL, Quek AML, Cheung C, et al. (2017).

Stroke biomarkers in clinical practice: A critical appraisal.

Neurochemistry International, 107, 11-22.

Kiskin FN, Chang C, ... Cheung C, et al. (2018).

Contribution of BMPR2 mutations and extrinsic factors in cellular phenotypes of pulmonary arterial hypertension.

American Journal of Respiratory and Critical Care Medicine, 198(2), 271-275.

SSY Chan, YS Tan, K Wu, C Cheung, DK Loke. (2018).

Ultra-high signal detection of human embryonic stem cells driven by two-dimensional materials.

ACS Applied Bio Materials, 1(2), 210–215.

Titmarsh D, Nurcombe V, Cheung C, Cool SM. (2019).

Vascular Cells and Tissue Constructs Derived from Human Pluripotent Stem Cells for Toxicological Screening.

Stem Cells Dev. 2019 Aug 9. doi: 10.1089/scd.2018.0246.

Natalie Yeo, Ebenezer Chan, Christine Cheung. (2019).

Choroidal Neovascularization: Mechanisms of Endothelial Dysfunctions

Frontiers in Pharmacology, 2019 Nov; 10: 1363. doi: 10.3389/fphar.2019.01363

Vanessa Wazny, Anthony Siau, Kan Xing Wu, Christine Cheung. (2020).

Vascular underpinning of COVID-19

Open Biology. 2020 Aug;10(8):200208. doi: 10.1098/rsob.200208. Epub 2020 Aug 27.

Wilson Lek Wen Tan, Chukwuemeka George Anene-Nzelu, Eleanor Wong, Mick Lee, Hui San Tan, Sze Jing Tang, Arnaud Michel Yvon Perrin, Kan Xing Wu, Wen Hao Zheng, Robert John Ashburn, Bangfen Pan, May Yin Lee, Matias I Autio, Michael Morley, Wai Leong Tam, Christine Cheung, Kenneth B Margulies, Leilei Chen, Thomas P Cappola, Marie Loh, John Chambers, Shyam Prabhakar, Roger Sy Foo. (2020).

Epigenomes of Human Hearts Reveal New Genetic Variants Relevant for Cardiac Disease and Phenotype.

Circulation Research. 2020 Jun 12. doi: 10.1161/CIRCRESAHA.120.317254. Online ahead of print.

S Arora, S Lin, C Cheung, EKF Lim, Y Toh. (2020).

Topography elicits distinct phenotypes and functions in human primary and stem cell derived endothelial cells.

Biomaterials, 2020 Jan; doi: 10.1016/j.biomaterials.2019.119747
