

## BEH Cyrus – Patent List

---

Beh, C.W., Wong W.L., Seah, T.L., SG patent application no. 10202202313X “Crosslinkable granular medium for creating porous hydrogel structures”

Beh, C.W., Wong W.L., SG patent application no. 10202202346R “Handheld Bioink Dispenser for Skin Bioprinting”

Beh, C.W., SG patent application no. 10202104532S “Multimaterial Bioprinting”

Beh, C.W., SG patent application no. 10202009039Q “Reaction Vessel”; PCT patent application no. PCT/SG2021/050553

Beh, C.W., Seow, Y., SG patent application no. 10202002812Q “A membrane, device and method for introducing one or more substances into a cell”

Beh, C.W., SG patent application no. 10202004379S “A method of forming a structure and related systems therefor”

Beh, C.W., SG patent application no. 10202003161Q “Hydrogels, methods of fabrication and uses thereof”

Beh, C.W., Seow, Y., Chin, S.Y. PCT Patent Application No. PCT/SG208/050165 “Liquid support continuous 3D printer”

Seow, Y., Beh C.W., US Patent Application Number 16/343,503 “Device, System and Method for Intracellular Delivery of Substances”

Seow, Y., Beh C.W., IPOS Application Number 10201608846Y “Cell loading via filtration”

Beh, C.W. IPOS Application Number 10201602557S “A portable handheld assay for acrylamide detection”

Beh, C.W. Kraitchman, D. L. Mao, H. Q. Wang, T. H. WO2012047802 A3 “Systems and methods for high-throughput microfluidic bead production”
