

Riga TAWO

Postdoctoral Fellow

+65 6824 7124

rtawo@nbl.a-star.edu.sg

Postdoctoral Fellow, NanoBio Lab, Singapore, 2019-present

Life Science Manager, ATV-Cologne, Germany, 2018

Postdoctoral Fellow & Head of Laboratory, Institute for Cell Biology, Rheinische-Friedrich-Wilhelms University of Bonn, Germany, 2016-2017

Head of Laboratory, Institute for Cell Biology, Rheinische-Friedrich-Wilhelms-University of Bonn, Germany, 2012-2017

Ph.D. in Cell Biology, Institute for Cell Biology, University of Bonn, Germany, 2016

Diploma in Developmental Biology & Genetics, LIMES (Life & Medical Sciences Institute), University of Bonn, Germany, 2008

Publications

1. R. Tawo, W. Pokrzywa, E. Kevei, M.E. Akyez, V. Balaji, S. Adrian, J. Hoehfeld, and T. Hoppe, "The Ubiquitin Ligase CHIP Integrates Proteostasis and Aging by Regulation of the Insulin Receptor Turnover," *Cell*, 169[3] 470-482
2. N. Kettern, M. Dreiseidler, R. Tawo, and J. Hoehfeld, "Chaperone-Assisted Degradation: Multiple Paths to Destruction," *Biol. Chem.* 391[5] (2010) 481-489
3. V. Arndt V, N. Dick, R. Tawo, M. Dreiseidler, D. Wenzel, M. Hesse, D.O. Fürst, P. Saftig, R. Saint, B.K. Fleischmann, M. Hoch, and J. Hoehfeld, "Chaperone-Assisted Selective Autophagy is Essential for Muscle Maintenance," *Current Biology*, 20[2] (2010) 143-148
