ABOUT SINGAPORE BIODESIGN

Singapore Biodesign, a global affiliate programme of Stanford Byers Center for Biodesign, is a national-level training development platform focused on bringing economic benefits and healthcare value through HealthTech innovation training.

Our curriculum is based on Stanford's renowned Biodesign Process which provides a systematic approach to identifying crucial unmet healthcare needs, developing novel technologies to address them, and the subsequent development of business and commercialization plans to bring them into patient care. All modules will be helmed by our WSQ ACLP certified trainers with more than 2,000 hours of teaching with guest speakers from the Industry!

Get Your Health and MedTech Innovation Training With Us!

- Gain new knowledge on how to kickstart a career in Health and MedTech innovation

- Hands-on team based learning while working on real world examples with deeper focus on Asia and implementation

- Better understanding of key implementation factors that can affect downstream adoption of healthcare solutions

- Gain a holistic overview of bringing a HealthTech innovation from project to commercial adoption

OUR WORKSHOPS
