Overview

Singapore Biodesign, a global affiliate programme of Stanford Byers Center for Biodesign, is a national-level training development platform focused on bringing economic benefits and healthcare value through HealthTech innovation training. Our curriculum is based on Stanford's renowned Biodesign Process which provides a systematic approach to identifying crucial unmet healthcare needs, developing novel technologies to address them, and the subsequent development of business and commercialization plans to bring them into patient care. All modules will be helmed by our WSQ ACLP certified trainers with more than 2,000 hours of teaching with guest speakers from the Industry!

Get Your Health and MedTech Innovation Training With Us!

Gain new knowledge on how to kickstart a career in Health and MedTech innovation

Hands-on team based learning while working on real world examples with deeper focus on Asia and implementation

Better understanding of key implementation factors that can affect downstream adoption of healthcare solutions

Gain a holistic overview of bringing a HealthTech innovation from project to commercial adoption

Our Courses

04 July 2022 &
16 January 2023

Design Thinking for Healthcare
Innovation: An Overview

01 - 05 August 2022 &
20 - 24 February 2023

Biodesign Bootcamp: Deep Dive
into HealthTech Innovation with
an End in Mind

03 October 2022 &
13 March 2023

An Introduction to Product
Development and Quality
Management Systems for
Health/MedTech

17 - 18 October 2022 &
03 - 04 April 2023

Design Thinking for Healthcare
Innovation: Focusing on
Identifying and Inventing for the
Unmet Need

14 - 16 November 2022

Business Model Innovation for
Healthcare Innovations

01 - 02 December 2022

Business Implementation for
Health/MedTech: Project to
Market Overview
