

Build a Start-up and your Entrepreneurship Career

with Singapore Biodesign and the MedTech Actuator

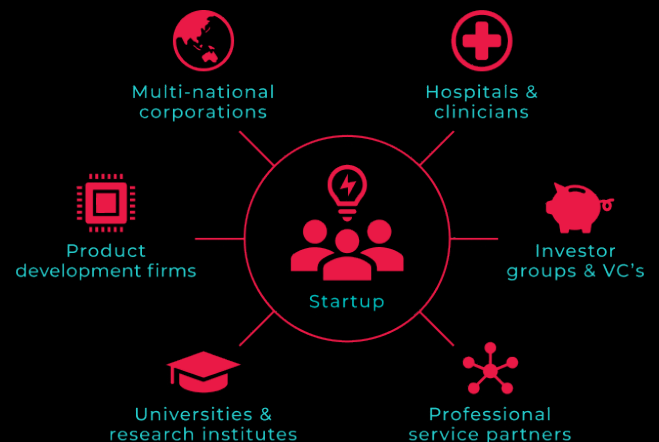

This is the first of its kind, Medtech sector-specific, Venture Building (VB) programme to encourage aspiring individuals to pursue entrepreneurship as a career pathway.

Singapore Biodesign and the MedTech Actuator is in partnership to provide a unique training experience for entrepreneurs.

- 12-week intensive
- Training includes the renowned Biodesign methodology, and the Medtech Actuator's commercially validated framework
- Get your ideas validated
- Develop your ideas and get your hands dirty by prototyping
- Identify and craft a business plan guided by industry experts
- Tailored mentoring by industry experts

Eligibility Criteria:

- No previous business experience required
- Open to all Singaporeans and PRs
- Fresh graduates, final-year students, and early / mid-career professionals with deep domain knowledge welcome
- Passionate to spin-off after the programme

Successful teams will have the opportunity to explore fast-tracked access to the MedTech Actuator's Accelerator programme for mentorship and guidance through the SSG Founder's grant.

Apply by 31st August
