HEALTH, SAFETY AND ENVIRONMENT (HSE) POLICY

It is ID Labs’ priority to provide its employees, students, contractors and visitors with a healthy and safe environment. The Institute strives through a process of continual improvement, to fully integrate health and safety into all aspects of its work activities. Furthermore, ID Labs endeavours to serve the community as a concerned neighbour and will not conduct activities that would jeopardize the health, safety and environment of the community.

ID Labs is committed to:

- Comply with all applicable health, safety and environmental legislations and other requirements;
- Continuously improve health, safety and environmental performance to prevent pollution, injury and ill-health;
- Observe, anticipate, identify and eliminate health and safety hazards in the workplace and continually review and reduce the risks;
- Ensure that our employees, students and collaborators take personal responsibility to prevent injury to themselves and their colleagues;
- Instil and promote health, safety and environment awareness and competencies by conducting trainings and communicating with all relevant parties to prevent incidents and injuries; and
- Provide adequate and appropriate resources to facilitate safe work conducted within ID Labs.

ID Labs requires all employees, students, collaborators and contractors to co-operate in achieving a high standard of health and safety performance, encourages and rewards all staff in pursuit of this goal.
