

Publications by Teck Hui Teo

(as of May 2025)

Preprints:

Cruz, A. R., Wimmer, B., **Teo, T. H.**, Pehau-Arnaudet, G., Winter, J. M., Gazi, A. G., Lafaye, P., Brier, S., Legrand, A., Dubrovsky-Gaupp, A., Bérard, M., Aymé, G., Sartori-Rupp, A., Medalia, O., Schnupf, P. (2025). Segmented filamentous bacteria undergo a structural transition at their adhesive tip during unicellular to filament development. bioRxiv.

Lim, C., Zhang, C. Y., Cheam, G., Chu, W. H. W., Chen, Y., Yong, M., Lim, K. Y. E., Lam, M. M. C., **Teo, T. H.**, Gan, Y. H. (2025). Essentiality of the virulence plasmid-encoded factors in disease pathogenesis of the major lineage of hypervirulent *Klebsiella pneumoniae* varies in different infection niches. EBioMedicine, 115:105683.

Cherrier, M, **Teo, T. H.**, Corrêa, R. O., Picard, M., Couesnon, A., Lebreton, C., Carbone, F., Masson, C., Schnupf, P., Cerf-Bensussan, N., Gaboriau-Routhiau, V. (2025). Hematopoietic MyD88 orchestrates the control of gut colonization by segmented filamentous bacteria. Mucosal Immunol, S1933-0219(25)00028-5.

Teo, T. H.#, Ayuni, N. N., Yin, M., Liew, J. H., Chen, J. Q., Kurepina, N., Rajarethinam, R., Kreiswirth, B. N., Chen, L., Bifani, P#. (2024). Differential mucosal tropism and dissemination of classical and hypervirulent *Klebsiella pneumoniae* infection. iScience, 27(2):108875. #Co-corresponding author

Lum, F. M., Chan, Y.H., **Teo, T. H.**, Becht, E., Amrun, S. N., Teng, K. W., Hartimath, S. V., Yeo, N. K., Yee, W. X., Ang, N Torres-Ruesta, A., Fong, S. W., Goggi, J. L., Newell, E. W., Rénia, L., Carissimo, G., Ng, L. F. P. (2024). Crosstalk between CD64+MHCII+ macrophages and CD4+ T cells drives joint pathology during chikungunya. EMBO Mol Med, 16 (3): 641-663.

Lee C. Y., Carissimo G., **Teo T. H.**, Tong S. J. M., Chang Z. W., Rajarethinam R., Chua T. K., Chen Z., Chee R. S., Tay A., Howland S. W., Ang K. S., Chen J., Renia L., Ng L. F. P. (2023). CD8+ T Cells Trigger Auricular Dermatitis and Blepharitis in Mice after Zika Virus Infection in the Absence of CD4+ T Cells. J Invest Dermatol, 143 (6): 1031-1041.

Torres-Ruesta, A., **Teo, T. H.**, Chan, Y.H., Amrun, S. N., Yeo, N. K., Lee, C. Y., Nguee, S. Y., Tay, M. Z., Nosten, F., Fong, S. W., Lum, F. M., Carissimo, G., Renia, L., Ng, L. F. Malaria abrogates O'nyong-nyong virus pathologies by restricting virus infection in nonimmune cells. Life Sci Alliance, 5(4): e202101272.

Chan, Y. H., **Teo, T. H.**, Torres-Ruesta, A., Hartimath, S. V., Chee, R. S. L., Khanapur, S., Yong, F. F., Ramasamy B., Cheng, P., Rajarethinam, R., Robins, E. G., Goggi, J. L., Lum, F. M., Carissimo, G., Rénia, L., Ng, L. F. P. (2020). Longitudinal [18F]FB-IL-2 PET Imaging to Assess the Immunopathogenicity of O'nyong-nyong Virus Infection. Front Immunol, ePub doi: 10.3389/fimmu.2020.00894.

Lee, C. Y. P., Carissimo, G., Chen, Z., Lum, F. M., Bakar, F. A., Rajarethinam, R., **Teo, T. H.**, Torres-Ruesta, A., Rénia, L., Ng, L. F. P. (2020). Type I interferon shapes the quantity and quality of the anti-Zika virus antibody response. *Clinical & Translational Research*, 9: e1126

Samassa, F., Ferrari, M. L., Husson, J., Mikhailova, A., Porat, Z., Sidaner, F., Brunner, K., **Teo, T. H.**, Frigimelica, E., Tinevez, J. Y., Sansonetti, P. J., Thoulouze, M. I., Phalipon, A. (2020). Shigella impairs human T lymphocyte responsiveness by hijacking actin cytoskeleton dynamics and TCR vesicular trafficking. *Cell Microbiol*, 19: e13166.

Torres-Ruesta, A., **Teo, T. H.**, Chan, Y. H., Rénia, L., Ng, L. F. P. (2019). Pathogenic Th1 responses in CHIKV-induced inflammation and their modulation upon Plasmodium parasites co-infection. *Immunol Rev*, 294: <https://doi.org/10.1111/imr.12825>

Chan, Y. H., **Teo, T. H.**, Utt, A., Tan, J. J. L., Amrun, S. N., Abu Bakar, F., Yee, W. X., Becht, E., Lee, C. Y. P., Lee, B., Rajarethinam, R., Newell, E., Merits, A., Carissimo, G., Lum, F. M., Ng, L. F. P. (2019). Mutating chikungunya virus non-structural protein produces potent live-attenuated vaccine candidate. *EMBO Mol Med*, 11 (6): e10092.

Carissimo, G., **Teo, T. H.**, Chan, Y. H., Lee, C. Y. P., Lee, B., Torres-Ruesta, A., Tan, J. J. L., Chua, T. K., Fong, S. W., Lum, F. M., Ng, L. F. P. (2019). Viperin controls chikungunya virus-specific pathogenic T cell IFN γ Th1 stimulation in mice. *Life Sci Alliance*, 2 (1): e201900298

Lum, F. M., Zhang, W., Lim, K. C., Malleret, B., **Teo, T. H.**, Koh, J. J., Lee, K. J., Chua, T. K., Kam, Y. W., Yee, W. X., Huen, I., Tan, J. J. L., Amrun, S. N., Prakash, B. K. N., Cozzone, P. J., Rénia, L., Lee, P. T. H., Ng, L. F. P. (2018). Multimodal assessments of Zika virus immune pathophysiological responses in marmosets. *Sci Rep*, 8 (1): 17125.

Teo, T. H., Lum, F. M., Ghaffar, K., Chan, Y. H., Amrun, S. N., Tan, J. J. L., Lee, C. Y. P., Chua, T. K., Carissimo, G., Lee, W. W. L., Claser, C., Rajarethinam, R., Rénia, L., Ng, L. F. P. (2018). Plasmodium co-infection protects against chikungunya virus-induced pathologies. *Nat Commun*, 9 (1): 3905

Gun, S. Y., Claser, C., **Teo, T. H.**, Howland, S. W., Poh, C. M., Chye, R. R. Y., Ng, L. F. P., Rénia, L. (2018). Interferon regulatory factor 1 is essential for pathogenic CD8⁺ T cell migration and retention in the brain during experimental cerebral malaria. *Cell Microbiol*, 20 (5): e12819

Teo, T. H., Howland, S. W., Claser, C., Gun, S. Y., Poh, C. M., Lee, W. W. L., Lum, F. M., Ng, L. F. P., Rénia, L. (2017). Prevention of Plasmodium-induced acute neuropathology by alteration of CD8⁺ T cell trafficking during Chikungunya co-infection. *EMBO Mol Med*, 10 (1): 121-138.

Lum, F. M., Lin, C., Susova, O. Y., **Teo, T. H.**, Fong, S. W., Mak, T. M., Lee, L. K., Chong, C. Y., Lye, D. C. B., Lin, R. T. P., Merits, A., Leo, Y. S., Ng, L. F. P. (2017). A

Sensitive Method for Detecting Zika Virus Antigen in Patients' Whole-Blood Specimens as an Alternative Diagnostic Approach. *J Infect Dis.* 216 (2): 182-190.

Kam, Y. W#, Lee, Y. P#, **Teo, T. H#**, Howland, S. W., Amrun, S. N., Lum, F. M., See, P., Kng, Q. R., Huber, R. G., Xu, M. H., Tan, H. L., Choo, A., Maurer-Stroh, S., Ginhoux, F., Fink, K., Wang, C. I., Ng, L. F. P., Rénia, L. (2017). Cross-reactive dengue human monoclonal antibody prevents severe pathologies and death from Zika virus infections. *JCI Insight.* 2 (8). pii: 92428. #Co-first Author.

Teo, T. H., Chan, Y. H., Lee, W. W L., Lum, F. M., Amrun, S. N., Her, Z. S., Rajarethinam, R., Merits, A., Rotzschke, O., Rénia, L., and Ng, L. F. P. (2017). Fingolimod treatment abrogates Chikungunya virus-induced arthralgia. *Sci Transl Med.* 9: eaal1333.

Lee, W. W. L., **Teo, T. H.**, Lum, F. M., Andiappan, A.K., Amrun, S. N., Rénia, L., Rotzschke, O., Ng, L. F. P. (2016). Virus infection drives IL-2 antibody complexes into pro-inflammatory agonists in mice. *Sci Rep* 6: 37603.

Teo, T. H#, Her, Z. S#, Tan, J. J. L., Lum, F. M., Lee, W. W L., Chan, Y. H., Ong, R. Y., Kam, Y. W., Leparç-Goffart, I., Gallian, P., Rénia, L., de Lamballerie, X., & Ng, L. F. P. (2015). Caribbean and La Réunion Chikungunya virus isolates differ in their capacity to induce pro-inflammatory Th1 and NK cell responses and acute joint pathology. *J Virol*, 89: 7955-7969. #Co-first Author.

Lee, W. W. L., **Teo, T. H.**, Her, Z. S., Lum, F. M., Kam, Y. W., Haase, D., Rénia, L., Rotzschke, O., & Ng, L. F. P. (2015). Expanding regulatory T cells alleviates chikungunya virus-induced pathology in mice. *J Virol*, 89: 7893-7904.

Her, Z. S., Teng, T. S., Tan, J. J. L., **Teo, T. H.**, Kam, Y. W., Lum, F. M., Lee, W. W. L., Gabriel, C., Melchioti, R., Andiappan, A. K., Lulla, V., Lulla, A., Win, M. K., Chow, A., Biswas, S. K., Leo, Y. S., Lecuit, M., Merits, A., Rénia, L., & Ng, L. F. P. (2014). Loss of TLR3 aggravates CHIKV replication and pathology due to an altered virus-specific neutralizing antibody response. *EMBO Mol. Med*, 7: 24-41.

Lum, F. M#, **Teo, T. H#**, Lulla, V., Lulla, A., Merits, A., Rénia, L., & Ng, L. F. P. (2013). An essential role of antibodies in the control of Chikungunya virus infection. *J Immunol*, 190: 6295-6302. #Co-first Author.

Teo, T. H#, Lum, F. M#, Claser, C., Lulla, V., Lulla, A., Merits, A., Rénia, L., & Ng, L. F. (2013). A pathogenic role for CD4+ T cells during Chikungunya infection in mice. *J Immunol*, 190: 259-269. #Co-first Author.

Kam, Y. W#, Lum, F. M#, **Teo, T. H#**, Lee, W. W. L., Simarmata, D., Harjanto, S., Chua, C. L., Chan, Y. F., Wee, J. K., Chow, A., Lin, R. T. P., Leo, Y. S., Grand, R. L., Sam, I. C., Tong, J. C., Roques, P., Wiesmuller, K. H., Rénia, L., Rotzschke, O., & Ng, L. F. P. (2012). Early neutralizing IgG response to Chikungunya virus in infected patients targets a dominant linear epitope on the E2 glycoprotein. *EMBO Mol. Med*, 4: 330-343. #Co-first Author.

Teng, T. S., Foo, S. S., Simarmata, D., Lum, F. M., **Teo, T. H.**, Lulla, A., Yeo, N. K. W., Koh, E. G. L., Chow, A., Leo, Y. S., Merits, A., Chin, K. C., & Ng, L. F. P. (2012). Viperin controls Chikungunya-virus replication and pathology in humans and mice. *J Clin Invest*, 122: 4447-4460.

Teo, T. H.[#], Lum, F. M.[#], Lee, W. W. L., & Ng, L. F. P. (2012). Mouse models for Chikungunya virus: deciphering immune mechanisms responsible for disease and pathology. *Immunol Res*, 53: 136-147. [#]Co-first Author.

Rénia, L., Howland, S. W., Claser, C., Gruner, A. C., Suwanarusk, R., **Teo, T. H.**, Russell, B., & Ng, L. F. P. (2012). Cerebral malaria: mysteries at the blood-brain barrier. *Virulence*, 3: 193-201.
