Prof Stephen Renshaw

Division of Clinical Medicine,
School of Medicine and Population Health
Sir Arthur Hall Professor of Medicine
University of Sheffield, United Kingdom

Tuesday 31st October 23

2pm to 3pm (SGT)

Venue: Codon A & B @ Matrix Level 5

Host-pathogen interaction made clear - zebrafish neutrophils in infection models.

Professor Stephen Renshaw is the Sir Arthur Hall Professor of Medicine at the University of Sheffield, combining clinical work in respiratory medicine with research into the molecular controls of inflammation resolution and host-pathogen interaction.

Prof. Renshaw has a specialist interest in rare and complex interstitial lung diseases, and delivers acute respiratory care at Sheffield teaching Hospitals NHS Trust. His key research achievement is the development of innovative transgenic zebrafish models to aid understanding of innate immunity.

Hosted by : Dr Stefan Oehlers

Webinar is open to all. No registration required
